

THE HAMLIN HERALD

IN 36th YEAR—EVERY WEEK SINCE 1905

HAMLIN, JONES COUNTY, TEXAS FRIDAY, FEBRUARY 28, 1941

NUMBER 18

Is Plenty of Rain In February A Forerunner of Prosperous Year?

Once before, this week and last week of rain, during February, the Herald had a good chance to brag about the good rainfall over this part of West Texas, and we did not say a word about it, because everybody knew it, any why print a lot of "bull" that is on everybody's tongue? But soon comes along some smart guy and says, "Well, I'll declare, you didn't say a thing about all that rain." Yep, that's the way the world goes, if you don't some one will say, "Why didn't you," and if you do, someone, and maybe the same one, will say, "Why did yuh, everybody knew that."

People generally have short memories, and newspapers serve to help them keep the records "truthful." Sometimes the editor has to go to court because he records certain things about the weather. Maybe some guy falls into a swollen creek and is drowned and his insurance company questions such an assertion, for it says in such and such a month the said creek was dry, and how could a man drown in it. So the records are dug up, and finally some smart lawyer thinks of the newspaper man. So the summons is made and the "record is brought into court." Yep, sure as heck there was a cloud that day, and the paper says it rained fish and bullfrogs, and thus the "man must have drowned." So the policy is collected and the family becomes a subscriber for the first time, out of pure gratitude. (That could happen).

So to keep the records straight, let's hereby and hereon say that not big rains, but a series of long drawn-out days and nights of this passing February held nothing but watery contributions for all of this community. Everything is wet and could bog down almost on concrete sidewalks. Not a whiff of sleet or snow has been seen lately, hardly cold enough for ice. Things look green and spring-like. Some yards and lawns are as green as if in June. Wheat and oats are booming, but plowing is somewhat delayed. There is some cotton yet in the fields, making this the longest cotton gathering season in many years. Some farmers report several bales not gathered and some have plowed cotton under. Gins still keep skeleton crews, and this Friday, Feb. 28th, closes another ginning year. Jones County will count well up in the 50,000 mark. What the good season means for 1941 prosperity is to be seen, but right now it looks like a boomer.

METHODIST CHURCH

JAMES E. HARRELL, Pastor

Sunday School, 9:45 A. M.
Morning Worship, 10:50.
Intermediates, 6:45 P. M.
Young People, 6:45 P. M.
Evening Service, 7:30.
Woman's Society of Christian Service, Monday afternoon at 3:00 o'clock.

Weslyn Service Guild, in regular meeting, Monday evening at 7:00 o'clock in the King's Daughters Class Room.

Group Prayer Meetings Monday, Tuesday, Thursday, and Friday nights of this week.

World Day of Prayer in King's Daughters Room Friday at one o'clock.

Our Revival begins Sunday morning, and will continue through Sunday, March the 16th. Rev. Orion W. Carter, pastor of the First Methodist Church, Childress, will conduct the services. Everybody is invited. COME PRAYING.

"We Welcome You."

W. C. RUSSELL WENT BACK TO WASHINGTON WEDNESDAY

Tuesday, Ted Russell had a call to return to Washington City to appear before a House committee which is discussing a cotton warehousing bill — one that was originally aimed to take government loan cotton to the big ports.

Mr. Russell caught a plane in Abilene late Tuesday night which would place him in Washington early Wednesday morning. This is his second trip this year.

Robert Walton Jr Joins U. S. Navy for Training

C. L. Wylie, CWT, U. S. Navy, in charge of the Navy Recruiting Station, Abilene, Texas, states that Robert Frank Walton, Jr., son of Mrs. Perry Sparks, of Hamlin, Texas, has successfully passed the examinations and enlisted in the Navy. He has been transferred to the Naval Training Station, San Diego, Calif., where he will be under military instructions for a period of six weeks. While at the Training Station, young Walton will be given an opportunity to request one of the fifty-five trade schools open to young men of the Navy or assignment to a ship of the United States Fleet.

At present the quota of the Abilene Recruiting Station is unlimited. For information concerning enlistment, young men between the ages of 17 and 31 may write or call at the Navy Recruiting Station, in Abilene, Texas.

Kite, The Granddaddy of The Airplane Today

Some youngster's kite was the granddaddy of the modern airplane. Wasn't it the first man-made thing to fly through the air with the greatest of ease?

And that reminds you that the kite-flying season is here again.

The West Texas Utilities, mindful of certain precautions to make kite flying safe for boys and girls, urges that they be called or notified if anybody's kite becomes tangled in light and power lines.

"It is dangerous for an inexperienced person to try to get a kite down," said Mac Brundage, local manager. "Rather than take chances with the safety of a youngster, we urge that you call our office and we'll send a lineman out."

He said also that children should remember these main things:

Keep away from all types of wires.

Do not use wire or metal on any part of a kite.

Do not use string with wire in it. Keep the kite dry.

Do not climb poles if kite becomes caught in wires.

"Another good thing about West Texas," he added, "is that there's plenty of space where a kite can be flown safely. Children should be cautioned to keep to the open spaces."

He reminded, too, that in some places the airplane, due to quickened wartime activities, had become a competitor for flying room in the skies and that kite-flying in the vicinity of airports or landing fields might soon become hazardous — at least to the kite.

VAUGHAN HOLT VERY ILL IN BROWNWOOD CAMP

A message came Wednesday afternoon from Camy Bowie that Vaughan Holt, son of Mr. and Mrs. Joe Holt, was very ill with a case of double pneumonia.

Vaughan was up to see his parents Sunday and the report is that when some of the other boys, who had been at home for the week end, joined him on the bus at Coleman, they found him in chilly rigors, evidently the beginning of the attack.

Later: The reports early Thursday morning say Vaughan is showing some gain.

Larry King, Jr., John Tarleton College student from Hamlin, is now training to become an airplane pilot. He has enrolled in the pilot training program at the Stephenville institution.

Mr. and Mrs. G. E. Davis are happy over the arrival of a fine 7-pound son, Monday of this week at a hospital in Abilene. His name is Charles Harrison Davis. The mother before her marriage, was Miss Ruth Eckler.

Hamlin Faculty To Take School Census

March, or census month for our school, is a most important one. We are eager to secure the names of all children living in the Hamlin Independent School District who will be over six and under eighteen years of age September 1, 1941.

The members of our faculty will take the census and plan to work throughout the month. They will call at every house at least twice. Should you be missed and have children between these ages please call telephones 192, 232, 191, or 262W.

The State of Texas pays the Hamlin schools \$22.50 annually for each child enumerated. This amounts to approximately \$19,000.00. We urge you to report every child.

G. R. BENNETT

Superintendent of Schools

It is appropriate now to say "grandma and grandpa" Morgan, for on Friday morning of February 21, a fine little daughter was born to Mr. and Mrs. Denman Morgan in Dallas. The name is "Geraldine" which is a combination name of the late Gerald Morgan and Miss Nadine Morgan.

Hamlin School Board Makes Pointed Statements About Local School Funds

No doubt, there are better ways to finance our schools than by the present method of local taxation. However, until we find and adopt a more workable plan, we must use the common method. Since it is time to make your years rendition, may be present a few figures for your consideration.

We have enrolled slightly over eight hundred boys and girls in the Hamlin schools. The cost of their instruction annually, based on an average is sixty-seven dollars each. Thus by multiplication, we get our total cost of operation, or fifty-three thousand six hundred dollars, (\$53,600.00).

Now our rendition for 1940 was one million six hundred thirty-nine thousand dollars, (\$1,639,000.00), and our rate of taxation was one dollar per hundred. We then should collect sixteen thousand six hundred thirty-nine dollars, (\$16,639.00), from the local tax payers. If you subtract this amount from our total cost of operation, you see that we receive thirty-six thousand nine hundred sixty-one dollars (\$36,961) from the State of Texas and other sources. The local tax payer pays less than one-third of the total costs of operation.

The State is willing to do this because they believe the education of our youth worthwhile. Then too, they believe that any community doing its best to support its schools is deserving of help. This last statement is the one the State must consider in relation to Hamlin.

We have seen our renditions on personal and real property decrease annually. Today every tax payer possible feels that he should render his property for as small a valuation as he may get by the equalization board. This is not done with any intent to be dishonest or to mislead. It is simply due to the following facts: First, we feel that we are taxed to death; secondly, we are under the impression that property should not be rendered for more than fifty to sixty per cent of its actual value and; lastly, we sometimes feel that much of our tax money is wasted.

In consideration of these three items we admit that taxes are high. But America and communities like Hamlin enjoy many privileges that no other group of people in the world enjoy. Yet we pay less for these privileges than the people of many countries pay for the lack of them. Our democracy and freedom is still based on the influences of our homes, schools, and churches.

To Conduct Revival

REV. ORION W. CARTER

Pastor First Methodist Church Childress, Texas

Rev. James E. Harrell, pastor of the Hamlin Methodist church, has secured the services of Rev. Orion W. Carter of Childress to do the preaching in the revival which is to start this Sunday, March 2nd.

Rev. Carter is ranked among the best of the young preachers of this district.

Rev. Harrell is making extensive preparations for a series of helpful meetings during this revival and welcomes the presence of everyone who can attend any of the services.

Miss Lucy Katherine Rowell of Anson was a guest of Mrs. Frank Waggoner over the past week end.

Letters of Congratulations to Jones County Winners At Abilene Show

Railroad Men Get A Large Salary Increase

Texas-Pacific Workers Get Annual Raise of \$93,000 Saturday

Approximately 1,141 workers employed by the Texas & Pacific Railroad will get pay raises estimated to total approximately \$93,000 annually, when the minimum wage order of the nation's railroad workers becomes effective Saturday.

K-K-T Workers Get \$96,000 Raise

Approximately 666 workers employed by the Missouri-Kansas-Texas railroad will get pay raises estimated to total approximately \$96,000 annually, when the minimum wage order of the nation's railroad workers becomes effective.

It is estimated that 70,000 workers in all will be affected by the minimum wage order and wage increases will total more than \$7,000,000 annually.

Good Samaritans To A Stricken World

The scourge of the most pitiless of all wars sweeps half the world. Its terror strikes the hearts of two-thirds of all the people on earth. To uncounted millions it brings famine, despair, homelessness, and suffering.

In the face of this dire tragedy, The Methodist Church—greatest of all Protestant denominations—cannot be complacent. Its power must be matched against the need of the race. In an extraordinary crisis it must render an extraordinary service.

March 2nd, 1941

The Day of Compassion

On that day American Methodism will register its response to the tragedy of the world. In one day eight million Methodists will give one million dollars for overseas relief and camp service.

\$500,000 for relief of the war-stricken millions in China and Europe.

\$250,000 to help maintain the foreign missions of British Methodism.

\$250,000 for a social and spiritual ministry to the boys in the army training camps of the United States.

It is our part to be Good Samaritans to the stricken world. The amount we will give—large when viewed in isolation—is but a pittance for Methodists acting together. Each church and individual must participate.

Make your Good Samaritan Offering on the Day of Compassion.

JESSE R. BONDS ACCEPTS POSITION IN ABILENE

Last week Mr. and Mrs. Jesse R. Bonds moved to Abilene where Mr. Bonds takes a position with the Mac Brown Grocery.

Mr. Bonds had been with the Terrell Foods in Hamlin the past five years. He has built up a wide circle of friends in this community and ranked as a leading grocery salesman.

This young couple were prominent in social and church affairs in Hamlin and have left a host of friends here.

CONTENTMENT

Contentment in old age isn't simply a matter of a roof over your head and three meals a day. Contentment involves, above all else, the factor of independence — independence from charity, from relatives, from government relief. It means economic self-security.

One of the great tragedies of life is the number of men and women who reach old age entirely without financial resources of their own. They feel that they are a burden to others, even though that feeling is not justified.

Misses Elsie Wienke and Nita Tidwell and Mrs. Perry Sparks attended the Texas Beauty Exposition in Dallas this week. They were accompanied by Mrs. E. M. Wilson and daughter, Miss Elmo Joy, who attended the Gift Show.

February 27, 1941
Mr. Floyd Lynch, County Agent, Jones County, Anson, Texas.

Dear Mr. Lynch:
On behalf of the Jones County Livestock interest, we wish to congratulate you, on your success in winning the First and Second place in the West Central Texas Livestock Show, at Abilene, Texas. This is quite a distinction. We feel that you and your boys deserve a lot of credit for the splendid work you are doing and trust this will pave the way for even greater success along this line in the future.

Very sincerely,

J. E. Moody, President

Jones County Livestock Show

February 27, 1941
Mr. Jack Tarpley, Noodle, Texas.

Dear Jack:
On behalf of the Jones County Livestock interest, we wish to congratulate you on your marvelous success in winning the First place and Grand Champion, of the West Central Texas Boys' Livestock Show, at Abilene, Texas.

We believe this is a great work, and trust you and the other boys of the County will continue to be successful in building a greater livestock interest in Jones County.

Very sincerely,

J. E. Moody, President

Jones County Livestock Show

February 27, 1941
Mr. F. W. Poe, Jr., Hamlin, Texas.

Dear Sir:
On behalf of the Jones County Livestock interest, we wish to congratulate you, on your success in winning the Reserve Champion of the West Central Texas Livestock Show, at Abilene. This is quite a distinction and a great honor, and is evidence that the boys of Jones County are accomplishing great things.

Very sincerely,

J. E. Moody, President

Jones County Livestock Show

BAPTIST CHURCH

We begin a new month this coming Sunday, and trust that many shall begin the month by being in Sunday School and church. Last year the churches launched a "March to Church in March" campaign, and we did see an increase in attendance. Why not make that our slogan this year?

Definite plans have been made concerning our spring revival. Rev. Phillip McGahey, pastor of the First Baptist Church of Breckenridge, will be our preacher. The revival will begin April 16th. Let us begin praying now for a great revival. Pray also for the revival beginning this coming week at the Methodist Church, Rev. Orion Carter, of Childress, will be the preacher. I have heard Bro. Carter and know he is a fine preacher. Hope many Baptists will attend the revival.

I wonder if we could not stay above the 300 mark all during the month of March? God has blessed us with this wonderful rain, and perhaps the weather will soon be suitable for all to come. Will look for you Sunday.

H. E. East, Pastor

Notice to The Public

We are not and will not be responsible for any bills or accounts contracted by any employee or person representing himself to be our employee or agent, unless said bill or account is authorized by valid purchase order signed by our Superintendent, Jack Hawkins.

THIS WEEK

A LITTLE BIT ABOUT

This AND A LITTLE BIT OF THAT

MILDEWED SUN:

Sunday, February the 16, 1941, West Texans saw the great ball of eternal light covering itself in the rim of the distant plains, shrouded by a deepening haze of merky clouds. That was the last time any of us saw this most famous and constant companion of West Texas lands, till the morning of Thursday, February 27th, and what a glorious sun it was and how spirited the steps of humanity greeted the new sight.

Now all this sounds crazy, especially to those folks down in East Texas who almost forget how sunshine looks because they so often pass through the long weeks of "clouded-out sunshine." But over here in West Texas sunshine is our pal, in fact, if we do not get it almost every day, we begin to wish for anything except those continued misty, dreary days. Even one can hear a wish for an old-fashioned sandstorm in the place of mist, mess, mire and mud.

—T & T—

LOOKING SKYWARD:

In these days of airplanes, bombers, fighters and excitement, it is no uncommon thing to see citizens gazing skyward, squinting and exclaiming. So it was that way in Hamlin Wednesday afternoon. The gazers were in the vicinity of Joe Bowen's place, and Joe Bowen exclaimed, "Yonder it is; there it is." He was the first to figure out the shape of

Dr. L. P. McCrary

Dr. JOE McCrary's Dental Office

HAMLIN—Saturdays, Sundays and Mondays

KNOX CITY—Tuesdays

PADUCAH—Balance of Week

the great ball of light, dimly seen through the rolling clouds. It had a weeping, mildewed shadow appearance and quickly faded away. In this blessed land one can look skyward expecting light and comfort, and not death and destruction.

—T & T—

THE BATTLE OF BOTTLES:

This week Americans have heard much about Ambassador Earle, in Sofia, Bulgaria. This man really represents Americans in that troubled little nation. And to represent the true spirit of America, most of us would want him to be calm, dignified, cautious, prudent, careful, friendly, gracious and everything found in the best of us in this free and happy land. But the sad part, reports indicate he was anything but most of that. Perhaps he was patronizing a low rate cafe, if so it was not in keeping with an Ambassador's station. If he was in the best cafe to be patronized, all the more should he have been careful in every movement and act. But to show what money can do he is reported to have stepped over and offered \$10.00 to the orchestra leader to play "Tipperary" purely to antagonize, not that he was more fond of that tune than some good old American tune like "Home on the Range," but to jab the Germans present. Drunken men are quick to resent and should any liberal American expect anything but a brawl of bottle throwing, and undignified conduct on the part of our Ambassador?

—T & T—

SCHOOL TAXES:

There appears in this issue some almost startling remarks from Hamlin's school board. It concerns funds for meeting the standard requirements of the schools of this district. What they say is about the same for most every small community in Texas. A situation could come up that would be hard to solve. Read for yourself, whether you live in Hamlin or some other town. Analyze each statement the Hamlin school board makes, for there is something to think about. In it you will find a situation going in opposite directions. The gap is sure to get wider and wider. Bondholders want their interest and finally their money back and all property is under bond to pay off the bonds. There is a better way of handling this situation and must be realized sooner or later.

—T & T—

NEW FIRM NAMES:

The past few weeks have been dim, misty and unattractive, so much so that several new firm names have not been so outstanding

ing . . . but now that the sun is bright again, we get the idea.

The most prominent name to appear is that of SCHOEMANN DRY GOODS CO., Inc. This name takes the place of the old-timer, "Strauss Dry Goods Co." And the Schoemann Company is actively represented by Kurt Schoemann as manager and, Mrs. Freida Schoemann, and Mrs. Kurt Schoemann as the other active members of the firm. Then in the sales force are the old-timer home lady assistants, Mrs. Clyde Huff and Miss Evalina Graham. This makes a good line-up for service first class. The Schoemanns have found Hamlin a congenial community to live in and in that they are starting off a new with their own firm name, means that they know a good thing when they have lived with it. So to the Schoemanns, here are congratulations from the Herald in behalf of all of the community of Hamlin.

Another change, almost a new Firm, Name is that of the BOOK SHOP, Mrs. E. M. Wilson, as we all know, has been operating a book-rental shop with the McMahon Company for several months. She is now in her own nice brick building next door to the Wilson Hardware Co. She is doling up to make her new place an educational center, both from art and reading. Yep, those who read are those who lead (we do not mean the funnies either).

The name is not up but just across angling from the Herald office will soon be the new Plumbing Shop—ROY SMITH'S. Now Roy is an old-timer just coming back home. He knows his stuff and if one does not want plumbing done right, don't call Roy Smith. He says he will sleep with the job, if it must be done that quickly. Roy would leave the impression that he wants it poured on him, day and night.

Who will be the next new name?

EUROPEAN STANDARDS AND OURS

I HAVE SEEN something of farming conditions of Europe—the narrow strips of land, of which every available inch must be cultivated that the farm family may eke out a barren existence; the little huddle of buildings along one side of the road in which the farm families live; the horse and cow and pig occupying the first floor of each building; the farmer and his family occupying the floor above; a manure pile in front of every building, each ounce of which must be carefully preserved that the few acres may be kept fertile and productive.

In such crude homes there are no conveniences—no toilets, no facilities for a bath, no telephones, no radios, and never an automobile.

In these villages there are no stores, no schools, no newspapers. They represent but a small settlement of peasants. One generation follows another. There is no opportunity for advancement, and among these people there is no ambition to achieve more than a mere living, as their fathers and grandfathers did for generations.

Such are the general farming conditions throughout continental Europe. Such is the general standard of farm life in France, Germany, Italy, Belgium and throughout the Balkans.

Germany has announced that she proposes to establish throughout all Europe a uniform standard of living, with the German standard at the top and serving as a model. That is the aim of Nazi rule.

It is a condition born of European methods. Such a condition would not, and must not, be tolerated in America.

Here we have opportunity. Thousands of our farm boys and girls achieve prominence in all walks of life. They are encouraged to work for self-improvement, encouraged to cultivate ambition, and out of it all, we are continually improving the American standard of living.

That is the American way.

DEFENSE TAKES TIME AND CAPITAL

WHEN WALTER CHRYSLER bought his first automobile in 1915, they were making them one at a time, and his Buick car cost something over \$5,000. It turned him from a railroad mechanic into a top-notch automobile manufacturer, but it took 30 years to perfect mass production methods to the point where hundreds of better cars could be built in less time than it then took to build one and so they could be sold at a small part of \$5,000.

It took a long period of designing, developing and building machines to do the job. Now we are asking industry to step into mass production of tanks, cannon, airplanes and other defense implements practically over night, and are inclined to condemn American industry for not making good.

The machinery used to produce automobiles will not produce any of the war implements we are asking for. New machines must be designed, developed and built for the new job. Not one of each, but hundreds. The first mass production job is that of tools.

Today there are employed in the manufacture of automobiles well over one million men. To provide tools and machinery for each man to work with has cost many billions. To provide tools and machinery for mass production on war implements will mean an expenditure of close to eight billion dollars if a million men are to be employed on the job.

It takes not only time, but it also takes money to do the job. Government restrictions as to financing have made it an almost impossible task for industry to provide any such sum. When the threat of war, or the war if it comes, is over, that eight billion dollar investment in tools and machinery would be practically valueless.

If industry is to protect us and provide for our war-time needs, we must give industry a chance as it applies to both time and money.

SEEING AMERICA

THE WAR in Europe is causing Americans to see something of the beauty and grandeur of their own land. Trains are heavily loaded with tourists now seeing America, who in previous years had thought of travel only as a trip to Europe, to the Far East or a Mediterranean cruise. An eastern friend tells me he has finally found that the western boundary of the United States is not the Hudson river.

HUNGER MORE PERILOUS

HUNGER WILL kill more people in Europe during the next 12 months than will bombs and bullets. Estimates of those endangered by lack of food range all the way from 15 to 60 million—and such conditions at a time when America is piling up surpluses of food products.

War accounts for but a portion of the difficulty. Lack of a practical, workable, world-distribution system is even more responsible. Americans can well afford to study that subject.

An Appeal to The Women of America From The Women of Conquered Poland

FROM THE DEPTHS

We reprint below an appeal from the women of Warsaw, which was brought to the United States by a secret and circuitous route. In this appeal the women of Warsaw address themselves to women all over the world and, in particular, to women in the United States to raise a powerful voice in America in the name of martyred Poland which, fettered and strangled by the military might of two enemies, is unable to speak for herself.

"The world, in the course of its existence, has witnessed many atrocities and crimes; the history of mankind is saturated with blood and tears. But history fails to record a Calvary equal to that, which we, the women of Poland, are living through now. We are suffering—as Catholics, as Poles, as mothers, as wives, as sisters and as daughters. We are suffering with every emotion of our hearts. There is no chord in our souls which has not been torn and trampled upon; there is no thought which is not a tormenting and heartrending grief.

"Our husbands—our brothers and fathers—perished in mass murders which wiped out tens of thousands. They die slowly in dungeons or perish from starvation and cold in war prisoners' camps.

"Our sons—the future and pride of the nation—either perish like their fathers (as boys of 12 and 14 years of age were by no means lacking among those who were shot), or are registered and taken away to alleged labor camps in Germany whence there is no return.

"Our daughters—our little girls, the dearest joy of our lives—are being apprehended on the streets or abducted from their homes under cover of night, imprisoned with prostitutes and deported to German

brothels. And there are among us mothers who, no longer able to shed tears, ask God for one thing only—that their daughters might die.

"Our babes—those innocents who first saw the light of day in refugee shelters, in freight cars or prison cells, are slowly dying in our arms—(no longer able to give them warmth)—without even once having had a warm bath or sufficient food.

"Our churches are burned, closed, closed or else doomed to destruction. Our priests have been imprisoned. Statutes of Our Savior and of the Blessed Virgin, the wayside shrines, are overturned, chopped down and destroyed. No religious services are permitted in the churches.

"Our schools are closed, our young generation cannot obtain education. In the opinion of the German governing authorities the ability to read and write is sufficient for the Polish 'nation of serfs' (Knechtevolk). They need no other knowledge.

"Our opportunities for gainful employment no longer exist. We have no means of earning a living. Everything has been taken away from us. We can only beg and die.

"Our homes, once cozy firesides, stand empty—no longer sheltering anyone. Their walls ceased to be a

protection, since every German has a right to enter at any time the abode of any Pole and take therefrom anything that might look worthwhile to him; furniture, linens and the last remnants of supplies.

"Crime, ruin and misery have plowed through the length and breadth of our land. Poland has forgotten laughter, forgotten words other than those of despair.

"Locked within a vicious circle of misfortune and unable to communicate with the rest of the world, we listen with stupefaction to the official pronouncements of the German masters. For instance, the infamous executioner, Greiser, pays tribute to German justice, assuring his listeners that in the territories occupied by Germany there has been no single act of terror or brutality; Adolph Hitler pledges his word of honor that not a single Pole has been deprived of his opportunity to work; Dr. Frank, 'the only lawful representative of the Polish nation' informs neutral newspapermen that Poland under German administration, prospers freely, that the majority of the Polish people cheerfully co-operate with the German administration, satisfied with having been delivered by the German government from playing the part of England's flunkey, and that the rumors of terror were but a figment of Allied propaganda.

"Listening to the cynical lies brazenly uttered, we tremble lest the world might believe them. For who could possibly fathom such an abyss of falsehood and hypocrisy? Who could possibly believe that at the very moment when 'the only lawful representative of the Polish nation' assured the world of the cheerful co-operation of the Polish people with the German administration—thousands of human beings all over Poland were perishing amid

st tortures, and all over Poland there was but one voice of execration of the Germans?

"It is, therefore, from the depths of our martyred souls that we cry to you, sisters throughout the world—that all this is not true! Do not believe what the Germans say. Before God Almighty we swear that our words are true and that our accusations are not exaggerated. We are living in hell. There is no Pole who would abide by this hell or who would co-operate with the Germans, unless it be under threat of a gun aimed at his children's heads. This hell is all around us—it is smothering us and we are its helpless victims.

"We endeavor, however, not to abandon ourselves to despair. We believe in Divine Justice, in the justice of history and in the victory of good over evil. We have faith in the victory of the allies and we wait for the day of their triumph. Should this day be slow in arriving there will be no Pole left to see it; Poland may be free but there will be no Poles. The objective and the endeavor of the Germans is to exterminate and to destroy our entire nation. Three million of us have perished already. This figure increases from day to day because famine grows apace.

"Sisters throughout the world, we appeal to you for assistance. Add your voice whenever the question of waging a slow or quick war should be in the balance. Demand a quick deliverance of Poland. Let your plea outweigh considerations of an economic or political nature. Sisters, we do not believe that our appeal is a plea for pity. The world, let us hope, is well aware of the fact that Poland's becoming a battle field shielded other countries from a similar fate; just as twenty years ago and on innumerable occasions in the course of our history, we formed a bleeding rampart. What would have happened to Europe if, in August of last year, Poland had pusillanimously yielded to Hitler's demands and Germany had thrown all her might against the western world—then still unprepared for war?

"Therefore, we do not beg for pity but ask for help—as people who fought in the front lines. Do not refuse us your help. Let your womanly voices fill the world that it may acknowledge the deliverance of Poland as its most urgent concern; let it be moved by our misfortune; let it understand our plight. THIS IS ALL WE ASK OF YOU."

HOUSEKEEPING...

is the world's biggest business

...but dependable gas service makes every housewife's job easier!

HOUSEKEEPING IS THE BIGGEST JOB IN THE WORLD

HOUSEKEEPING is a bigger job without dependable gas service!

Someone has figured out that the average housewife washes 1,129,267 dishes, pots, pans, etc., before she is fifty. Think of the staggering amount of dishwashing done in this community during a year and the barrels of HOT WATER it takes to do the job.

HOUSEKEEPING is a bigger job without dependable gas service!

Who watches the temperature at your house during cold weather and guards the family's health while doing a thousand other things? You're right, it's the housewife in nine cases out of ten.

HOUSEKEEPING is a bigger job without dependable gas service!

Who sees to it that plenty of hot water is on hand at all times for the thousands of baths the family takes in a life time? Again you're right—it's the housewife.

HOUSEKEEPING is a bigger job without dependable gas service!

There are over 1095 meals cooked in the average home each year. Think of the enormous cooking task of preparing 22,000 meals before Junior is old enough to vote.

YOUR DEPENDABLE GAS SERVICE HELPS WITH THE BIGGEST JOB IN THE WORLD AT A COST THAT AVERAGES ONLY A FEW PENNIES A DAY.

Mothers and wives—the homemakers and housewives of this community—are *vitaly concerned* with the kind of gas service available to them. We say *vitaly concerned* deliberately because they are responsible for "keeping the home fires burning." They are the ones that realize the full importance of dependability because they would be the first to *suffer most* if their gas service were not dependable. Anything that has to do with gas service comes under the head of important business to them.

There was a time when gas service was sort of a "catch-as-catch-can proposition" with no assurance that gas could be counted on for even the ordinary domestic uses of today. Often the supply was from single fields furnished by one line. It was the *horse and buggy era* of "TWO STOVES IN EVERY ROOM." When gas wasn't available, housewives had to rely on a make-shift arrangement with coal or wood as a substitute.

Today your gas service, supplied by an interconnected pipe line system reaching out to more than 1200 wells in 60 fields, removes all the inconvenience and insecurity of the "TWO STOVES IN EVERY ROOM ERA."

Wild Game News Always Makes Interesting Reading

Kills Strange Duck

A rarity among wild ducks, a hybrid, was killed during the recent hunting season by Porter Loring of San Antonio. Shooting at the St. Charles Club near Rockport, Loring dropped a bird which appears to be a cross between a mallard and a sprig. Wild ducks and geese often mate with tame varieties, but for two species of wild ducks to mate is extremely unusual, according to Texas Game Department biologists.

The duck killed by Loring has a mallard breast and a tail half pintail. Its head is brown with a reddish cast.

More Ducks In Texas

Many hunters who returned home with empty or near-empty bags during the last duck season won't believe it, but careful checks by the Game Department biologists reveal that more ducks and geese wintered on the southeast Texas coast than have for ten years. These same biologists list as some of the reasons for poor kills: limited permission to hunt on large land holdings; roads impassable to autos when wet; an unusually large supply of rice

left in the fields to the mallards, pintail and teal, where 98 per cent of the feeding was done at night, and finally, an unusually heavy rainfall, which created an open lake on the coastal marsh. From daylight until sunrise wave after wave of pintails and mallards could be seen coming from the rice fields and stopping on the marsh for a long day's rest.

A check of 1,031 hunters' kills revealed many things, among them the fact that 30 per cent of the bags were young ducks and that the sex ratio was about 50-50. The kill of most species was also greater, the annual check reveals. Mallards declined from 42.4 per cent of the bags to 11.4 due to the earlier season in 1940, which opened before the heavier birds arrived. However, the kill of teal was 4.3 per cent greater, baldpates 7.2, gadwall 14.4 and mottled duck nearly 4 per cent.

There was a very substantial increase in geese taken due to the presence of many more snow and blue geese.

Defends Armadillos

Many hunters accuse armadillos of destroying quail and turkey nests. However, G. E. Bradley of Gonzales County is one Texan who believes as do most biologists, that armadillos do not bother bird nests, although they may occasionally overturn one while rooting. Mr. Bradley reported armadillos were numerous within a twenty-acre turkey nesting trap, but he found no evidence of nests being destroyed by the little armoured animals.

REPORTERS: Clara Spratlen, Joyce Hudson, Mary Nell Bell, Marguerite Nobles, Norman Lassiter, Selma Hassen, W. D. Bristow, Phala Davis, Hope Cade, Charlotte Dillingham, Virginia Hampton, John Flores, Craigolene Elmore, R. A. Dean.

TYPISTS: Herbie Faye Johnston, J. C. Bledsoe, Eleanor Stephens.

STUDENTS ENTER READY WRITERS TOURNAMENT

In preparation for the Ready Writers Division of the Interscholastic League, a tournament is in progress. The students participating in this division, meet each Wednesday morning and write for two hours on one of five subjects drawn at that time from a list of eighty subjects. At the close of the three contests the student having the highest average will represent the school in the County Meet. The ranking of the following students entering this tournament will be announced at the close of the third contest: Joyce Hudson, Odean Murphree, W. D. Bristow, Clara Spratlen, Selma Hassen, Eugene Ward, Hope Cade, and Phala Davis.

The judges for the first contest were Mrs. Holly Toler, Mrs. Dan Jones, and Mrs. Tate May.

ELEMENTARY SCHOOL LIBRARY READY FOR SHELVES

The books for the new library in Elementary School have been classified and catalogued and are now ready for the shelves. Among their books there are three sets of reference books, fourteen books on myths, legends, and Bible stories, eight books on citizenship, thirteen history books (eighteen geography books and two hundred and thirty-one story books.) There are 321 books in the library, sixty-three of which were donated recently when a book drive was made by the Elementary School P.T. A.

ANSON BAND VISITS HAMLIN HIGH SCHOOL

Last Friday, Hamlin High School was honored with a program presented with a variety of numbers consisting of overtures, marches and popular variations. The program was enjoyed by every student of Hamlin High School. In exchange for this program, Hamlin will return the assembly program. To the Anson High School Band, we the students of Hamlin High School, give you credit for a band that measures up to the snappy uniforms you wear.

HOMEMAKING CLASSES AT WORK

It is difficult to begin telling people all that the Homemaking classes are doing since two second year foods classes are in progress. The first year class is learning to sew and the third year girls are studying the housing situation.

Last week the second year classes learned a little about canning. The girls made blackberry jelly that was very good, particularly since it was their first try. They learned that good jelly is tender and clear, with a good flavor and color.

The first year class is an unusual one as the girls are all upper classmen. They have each made a plain cook apron and are now making sport blouses. One of them said the other day that she is nearly ready to learn to make buttonholes. The instructor said, "With the new way of working them they are not hard."

The most eager group in this whole department is that third year group. They are making hand-hemstitched luncheon sets, but most of them can hardly wait to start on their afternoon dresses.

Visitors will find this department very interesting.

BASKET BALL SEASON ENDS

The Pied Pipers' basket ball season of 1941 closed with nine wins and nine losses for the Piper hoopers. The season started with two lettermen reporting, but a bunch of determined boys went out to uphold the tradition of Hamlin High. The green and white clad boys took the floor for their initial start to oppose the Anson Tigers and emerged victorious. From there on the Pipers won and lost some heartbreaking games. On their "on" nights, they were hard to beat. Led by Capt. Don Coles, they showed some real Piper spirit. Incidentally, all of the starting quintet are juniors in scholastic standing, so district, better watch out for the Pipers next year.

THE RESULTS OF THE JUNIOR PLAY

Wonder why all the Junior play cast has been going around with such big smiles this last week? Just ask them! The answer will be, "Didn't you see the Junior Play?" They all seem to be quite proud that it is over but they just will not stop talking and boasting of the fun and success they had. The general talk now is "Wasn't grandma re-l?" "Poor Lulu!" "That queer father!" "That handsome Uncle George!" and "Wasn't the whole play just grand?" It was so realistic and was just full of fun and laughter. Everyone seemed to enjoy it, especially the cast and the ones who helped present it.

TATE MAY TALKS TO F. F. A. CLASS

The boys in the first year class of vocational agriculture were honored, Thursday morning with a visit from Tate May, who gave a talk on "Banking and How to Borrow Money."

Mr. May said the first thing is to be honest and reliable. Do what you promise the bank. Pay your note when it is due. If you cannot possibly pay it and you know it, go to the bank and talk it over with the bank officials. Mr. May also said "Credit is a good thing if handled properly."

Mr. May wants to help the F. F. A. boys in financing their projects, and he thinks the F. F. A. organization is a great one.

OUR SCHOOL BUILDING

The school children of colonial days shivered in log school houses. The opportunities for education then were few. As time advanced, buildings have been improved until we have beautiful structures of architecture throughout the land. I am proud that the Hamlin High School building is one of these beautiful structures. Within her walls, this building contains material for an adequate school system. Yes, our High School building is something to be proud of; and if we appreciate it as we should, we will not mark on the walls, cut on the desks, sling ink on the floor, or do anything to mar its beauty.

THE VALUE OF INTERSCHOLASTIC LEAGUE

By Clara Spratlen

It won't be long until there will be another County Interscholastic League in Anson. This means nothing to some people, yet means much to others. In entering these contests, the students have everything to gain, nothing to lose.

Student participation in both literary and athletic events gives the student more self-confidence, stimulates a desire to master something worthwhile and teaches him to be a good loser and a good winner.

Each student of Hamlin High school should be willing to enter at least one contest for his own good. This year we are planning to work hard and make a better representation for Hamlin than ever before.

The seniors have completed a unit of five themes written on subjects within the range of their own reading and experience. The following theme written by Dick Kelly is among the most original and artistic:

ON NAMING THE BABY

Those of you who have had the experience of naming a baby will understand exactly what I mean when I say "an exciting experience." I already had four brothers and a sister to quarrel with, but one morning the news came that I had another little read headed brother, I was as excited as if he were my first instead of the fifth.

Everything went well for a time, but trouble came. No! No one was ill or injured. It was just time to give the new relative a name, a name he would have to wear thru life. Suggestions began to come from all the relatives, friends, and members of the family. It would be impossible to remember all of the names, but my old maid aunt was determined to name the baby Wil-

liam Jerome. After a heated debate between her and the rest of us, we got the baby out of danger of such a name. My cousins and friends suggested everything from Clark Gable to Charlie McCarthy while Mother and Dad were trying to find a name that would look good on the front page of a newspaper when he became president. I, too, made numerous suggestions which no one ever thought worthy but myself.

This naming went on until I began to think that my little brother would have to do without a name; but after a few days of debate, argument, and general agreement, we decided upon a name. No worthier name could have been found. Every king, nobleman, and statesman since the beginning of history has had a part of it in his name to distinguish him. So the baby was christened William Alexander Lewis. The poor baby would have to carry a handle like this through life, I thought.

William Alexander Lewis has grown to be a large boy now, and has made all our work in naming him a waste of time, because his family calls him "Louie" and his friends call him "Red." Not many

people outside his family know his real name, and he makes it plain to those who do know to keep it to themselves.

VOLLEY BALL

Everyone in Hamlin High is interested in Interscholastic League events, including the girls. For many years Anson has completely run over Hamlin in volley ball, but this year they intend to put up a fight. Approximately forty girls are training for this event. The coaches are Miss Martin and Miss Murphree; Coach Smith has been dropping in and giving the girls helpful hints. In all probability Hamlin will make a better showing in League Meet this year.

PIPERS GO SNOOPING

Ask Jimmy Clements if his first shave were really as thrilling as he said it was. Well, anyway, they can not tease you anymore, can they?

Your Piper wants to compliment the Juniors on their success of their play, "Problem Father."

Poor Joan! She's pining away and is now calling herself "Widow Culbertson."

What cute little brunette watches every move her boy friend makes when taking another girl home?

What adorable doll has her eye on Jack Anderson—or maybe there are two more dolls, at least, they call each other "Comrade."

Surprise! Can Courtney Ann be courtin' Tommy Hill these days? Well, I'm not one to gossip but I saw them at church together Sunday night. Confidentially, your Snooper approves.

Charlotte, who is dating the chairman of the "Falcons" has a new name, Chocolate Chiclet Perfidia Dillingham! Ain't that a killer?

A dollar a dollar—Ten o'clock scholars—What makes the band students come so soon? (Perhaps this is the solution):

The belt the boys all hate, 'Cause they get it when they're late. The girl, when late, does pine, While the windows of HHS they shine.

For a great big laugh ask Coach Grigg to demonstrate "How the professor of this institution should act."

The Aleathan Class

The Aleathan class had their monthly social and business meeting at the home of their teacher, Mrs. J. L. Keen, Wednesday at 2:30 P. M.

Chinese Checkers were played. After a business meeting, cherry pie and coffee were served to:

Mmes. G. P. Odom, La Foy Patterson, A. G. Miller, Alvis Bonds, H. E. East, Edward Gardner, Paul Baucum, O. G. Harvey, H. V. Brown, Theron Rogers, E. J. Whaley, Alton Clemmer, J. L. Keen and Mrs. M. Y. Wilson.

Miss Beverly Ann

Harvey Hostess for Valentine Party

In a setting of Valentine hearts and red tapers, a jolly bunch of boys and girls climaxed Valentine's week with a semi-formal party, in the home of Mr. and Mrs. O. G. Harvey.

The little hostess, dresses in a white moire taffeta evening gown with a real flower corsage for her hair, greeted the guests upon arrival. Some of the little girls were wearing evening gowns, some were wearing party dresses.

The girls wearing evening gowns were: Misses Elmarie Brewer, wearing printed rose batiste; Phyllis Richardson in soldier blue taffeta and pink bows for her hair; Jane Adams in red and white checked taffeta; Bettye Rae Sellers in rose taffeta; Margaret Ruth Ryan in chiffon.

The girls wearing lovely party dresses were: Misses Patsy Ruth Gibson, Bagnal Thurman, Bobbie Jack White, Betty Jane Miller, and Dorothy Helen McCray.

Boys attending were: Masters W. C. Moore, Joe Clements, Charles Lael, Sam Brooks, Bob Miles, Chas. Cain, Victor Colborn, Gene Richardson, Dan Jones and Ray Myers.

Elementary P.-T. A.

To Meet March 6th

Hamlin Elementary Parent-Teacher Association will meet Thursday, March 6, at 3:45 P. M.

Mrs. Joe McCrary will be the presiding officer. Entertainment will feature a number by the pupils of the fifth grade, followed by a book review given by Mrs. Goodson Sellers.

Every parent is urged to attend this important meeting.

Mrs. Otis Hopper

Hostess to Club

Mrs. Otis Hopper was hostess to the Trece Senoras Club in her home, Tuesday afternoon, including Mrs. Earl McLeMore as a guest.

A George Washington note was featured in tallies and the attractive refreshment plate which held salad, sandwiches, cookies and coffee. In bridge games, Mrs. C. F. Butcher held high score.

Club members present were Mmes. Butcher, Bill Rountree, Clinton Barrow, M. T. Hudson, R. H. Campbell, Landon Davis, L. H. McBride, Vera Nobles, Fred Carpenter, Ray Jones and Roy Gilbreath.

Announcements of the approaching marriage of Conrad Barton of Dayton, Texas, and Miss Wynona Beachamp of Waco, were made in those cities last week. Conrad is a son of Mr. and Mrs. Carl Barton of Hamlin, a 1938 graduate of the Hamlin High School. The marriage will take place March 3rd at the home of Mr. and Mrs. Beauchamp in Waco.

Mrs. S. D. McMahon went to Dallas the past weekend to attend the big Gift Show. She said the only thing to prevent one enjoying the trip and show was the constant rain and mist.

Luncheon Sunday

To Honor Recent Bride and Groom

Sunday, Mr. and Mrs. George Malouf were host and hostess to a one o'clock luncheon at the Morgan Hotel, honoring Mr. and Mrs. Thomas George of Crosbyton, a recent bride and groom.

Two weeks ago, Mrs. Malouf's sister, Miss Sadie Gabriel, was married to Mr. Thomas George, a merchant of Crosbyton.

Mr. and Mrs. Malouf had arranged for a guest list of about twenty-five, but the inclement weather over this part of Texas prevented several from arriving in Hamlin from out of town. Even the honorees were unable to get to Hamlin because of the early morning snow, fog and rain on the plains, making the roads dangerous for travel, especially on stretches under construction like between Hamlin and Aspermont. However, three guests from Rotan, Mr. and Mrs. J. S. Malouf and their son Joe, were present and the guest list of Hamlin people included Rev. and Mrs. H. E. East and little daughter, Elizabeth Ann, and Miss Virginia East of Hardin-Simmons University; Mr. and Mrs. Travis Dean, Mrs. Carl Greenway and son, Forrest Greenway, Bowen Pope and little Miss Angela Malouf.

Notwithstanding the fact that each guest regretted the absence of the honorees, the luncheon proved very enjoyable.

FANCY personal stationery, printed, any color at the HERALD.

Growing Good Grub Over In Fisher County

Um! Um! Fresh vegetables from the garden in January and February—that is what makes one appreciate a frame garden. At the George Webb home one can have greens of different kinds, radishes, lettuce and spring onions from the open garden with turnips. What with some good boiled country cured ham and plenty of fresh country butter and some delicious hot rolls and fruit from the Home Demonstration pantry, with some nice cake that melts in the mouth—what else would one need? All this is from the farm in the reach of the most who are striving to have a live at home program. Mrs. Geo. Webb and Miss Leila Webb are both members of the Capitola Home Demonstration Club and the family are Whole Farm Demonstrators.

The frame garden found at this home is about 12 feet long and 3 feet wide. The sides are made from 12 inch boards and the garden is covered with a thin grade of muslin to keep out some of the sand which cuts tender vegetables and protects it from the wind and keeps out the excessive heat in the summer time, and also aids in conserving the moisture. A thin layer of well rotted manure is used to help overcome the effects of the gyp water and assist the vegetables in growing. One thing of importance that is noted in the vegetables from the frame garden is the fine flavor that they have and how clean the vegetables are that are grown under cover. Also the radishes are not "pithy" that are grown under this method.

Mrs. J. L. Toland, co-operator in the Home Food Supply Demonstration of the Capitola home demonstration club, states that she is replanting her frame garden for they couldn't get along without the vegetables that are grown in it. She had a very successful year in 1940. Her frame garden is located at the end of the open garden and has two rows of sub-irrigated tiling running lengthwise the garden made from tin cans which furnish it with plenty of moisture.

—Jewell Hipp, Co. H. D. Agent

Way "Build-up" Helps Will Interest Women

The cause of a woman's periodic suffering from headache, irritability, cramp-like pain, may be functional dysmenorrhea due to malnutrition, a condition that is often helped by CARDUI.

Principal way CARDUI helps is by stimulating appetite and the flow of gastric juices. Thus it may aid digestion; help build up a woman's strength, energy and nerve-force; so increase physical resistance to periodic discomfort.

It also helps reduce periodic distress for many who take it a few days before and during "the time." Your confidence in CARDUI is invited by its 50 years of popularity.

Mrs. D. O. Sauls came home Tuesday after a stay of several months in Houston with her daughter, Mrs. Martin McCain and family.

Miss Mildred Barrow came up from the John Tarleton College last Friday to spend the week end with her parents, Mr. and Mrs. Bob Barrow.

Get in on the

BIG DEAL

you can make on the Big New Ford right now!

YOU HAVE TO GET two things to complete a really good "deal" when you get a new car—and your Ford dealer would like to have you try him out on both! First, you want a good allowance for your present car—and all he asks is a chance to make an offer! And next, you want a lot of value in your new car—and that means a Ford this year more clearly than ever before!

This is the biggest Ford and biggest value in all Ford history. Its passenger room exceeds anything else in its field. Its soft and quiet new ride is one of the motor year's most talked-about improvements. Its engine is a smooth V-8, which you enjoy at no extra cost for either gas or oil. And its bodies and style are really new this year, all the way through.

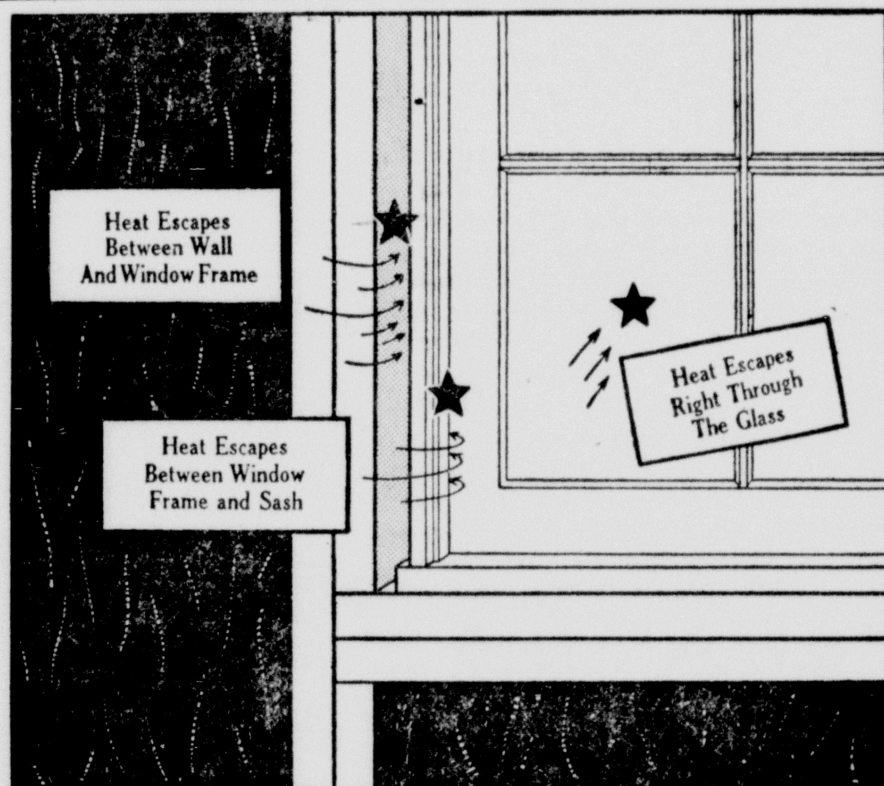

If you're trading cars this year and want to be sure you make the most of your trade... the man to see is your Ford dealer. Now is the ideal time.

Built in Texas by Texas Workers

GET THE FACTS AND YOU'LL GET A FORD

WALLS IN HOME ONLY PART OF INSULATION PROBLEM

Many a home is being built today that is only half insulated. Yet the man who is spending his money to build the house doesn't know a thing about it. These people, when they build, won't hesitate to spend \$150 to \$200 to make their walls weather-tight. They will buy the best insulation, the best moisture barrier, and use the best construction methods, but they overlook completely the fact that the walls of their homes have from ten to thirty great big holes in them that are filled only with windows.

These holes must be filled with good windows—windows that do more than

harmonize with the architecture of the home. For a window is not only an architectural feature. It is also a mechanical feature.

Windows are just as permanent a part of the wall as insulation. Just as it is wise to spend those extra dollars for insulation—so it is wise to spend a few extra dollars to see that a window frame makes a permanent weather-tight joint with the wall, that window sash are precision fitted to the frame, that an efficient job of weather-stripping is done, that storm sash or double glazing is provided, and that the operating equipment used will give a lifetime of trouble-free operation.

"Well, Do You Want It Cleaned Up?"

Above all else—
Don't Take Chances!

REMEMBER:

1. Keep away from electric wires.
2. Do not use wire or metal on any part of kite.
3. Do not use string with wire in it.
4. Keep kite dry.
5. Do not climb poles if kite becomes caught in wires.

MARCH winds blow. Kites dot the sky... dipping, soaring, climbing, as they play tag with the wind. It's a favorite sport, and a grand sport. But be sure it's a safe sport, too.

Reddy Kilowatt reminds parents of these precautions. See that your child understands and observes them. We don't want to discourage anyone's having fun—safely. There is plenty of open space in our West Texas country where a kite can be flown safely. But kite-flying should not be attempted among wires of any kind.

Serious and even fatal accidents have resulted from kites coming in contact with high tension wires. We want to help keep your child—all children—safe from harm.

West Texas Utilities Company

POT SHOTS FROM M'CAULLEY

—BY GEO. DARDEN—

Sunday night and another rainy day, and to be sure there is plenty of mud around Camp Barkeley. Thanks for Pershing Drive and the nice paved roads which have been completed inside of the Camp.

All this nice rain makes prospects for a crop and the farmers we see are all smiles.

Casing is soon to be set on the Pink Maberry well southwest of town, and we understand that the well is showing about fourteen feet of saturation.

Mrs. Brown, mother of I. N. Brown, has been very ill and doesn't seem to be improving at this writing.

Mr. and Mrs. Albert Galloway and family made a trip to Bonham, Texas, to visit Mr. and Mrs. Vernon Harris. While there they made a sight seeing trip into Oklahoma.

Tuesday, Feb. 25, was another birthday of McCaulley's oldest citizen, Cicero (Pa) Martin, and on that day Pa was ninety-seven years young. We say happy birthday and may you see many more.

J. I. Parker, who is connected with the C. Q. M. at Camp Barkeley, was in McCaulley Saturday on business.

Frankie Jo Andress, little daughter of Mr. and Mrs. Lon Andress, has been quite ill, but is now doing fine.

A birthday dinner honoring Mrs. Charlie Eivens was given last Sunday at the home of Mr. and Mrs. Milo Gray in Sylvester. Those making the occasion a happy one for Mrs. Eivens were: Mr. and Mrs. Elms Eivens and children, Mr. and Mrs. Granville Dean and daughter, and the host and hostess, Mr. and Mrs. Gray.

The home demonstration club members were entertained with a waffle supper in the home of Mr.

and Mrs. Luther Maberry last Friday night.

Mrs. Cyper, sister of Mrs. Keller and aunt of Mrs. L. E. Rector, is visiting in the home of the Rectors and Kellers. Her home is in Las Vegas, N. M.

The home demonstration club of McCaulley will broadcast over Station KXOX, Sweetwater, March 3, at 1:30 P. M.

Holman Boyd won second place in the dry lot calf show at the Roby stock show.

Due to the spread of wars, which is eating into the heart of the Balkan states, the bad situation which is brewing in the Far East, it behooves us as a United nation to speed up our preparedness program. Every peace loving country in the world should arise and meet the threat of Hitler and his war machine. It will be foolish to have further debates as to what this government should do toward further aid to Great Britain. The Senators and Congressmen who are opposed to aid for England should try finding out what about ninety-five per cent of the people of our country think about guns, ships, and everything else that will help England win. There's always some man who wants to see his name in the head lines of the newspapers and it seems as if it makes no difference what stand he take so long as the papers print his ballyhoo. Let's put freedom, life, liberty and pursuit of happiness above goose stepping, heel Hitler and all other rot which threatens to enslave the world. When the time comes to defend the principles for which America stands, Uncle Sam will be ready.

A DARDEN-O-GRAM

BOYD CHAPEL CHIRPS

(By Mrs. Albert Haught)

Due to the rainy weather there was no Sunday School and church Sunday.

Mr. and Mrs. Harry Burkett and little twins of Post spent the week end in the home of her parents, Mr. and Mrs. O. C. Estes.

Mr. and Mrs. J. P. Cornelius spent Wednesday of last week in Seymour visiting their daughter, Robbie, who is employed in a beauty shop at that place.

Mr. and Mrs. Clarence Hill and family of Hitson spent Sunday with her parents, Mr. and Mrs. Luther Haught.

Mrs. L. F. Cozzen and Starkey of Tulsa spent Thursday and Friday with her children of this community.

Mr. and Mrs. H. C. Hodges and Mr. and Mrs. Foy Rogers spent Saturday and Sunday with Mr. and Mrs. William Rogers of McCaulley.

Miss Virginia Cozzen spent the week end in Stamford with Mr. and Mrs. E. J. Garvin.

Mr. and Mrs. O. C. Estes and Mr. and Mrs. J. P. Cornelius spent a portion of last week in Dallas with friends and relatives.

Mrs. Earl Brown has been with her mother of near Anson several days.

The Anson Chamber of Commerce members entertained the P-T. A. members last Thursday night. After a very nice entertainment, they served cookies and coffee. A large crowd was present and all reported a nice time.

The singing class met last Wednesday night in the home of M. L. Haught. Everyone reports a nice time and we urge you to attend the next singing. It is to be in the home of Mr. and Mrs. H. C. Hodges, on March 5th.

Miss Virginia Cozzen and H. C. Hodges were entertained with a birthday party last Friday night in the home of Mr. and Mrs. V. R. Kelley. Games were played, after which the honorees were presented with attractive gifts. The birthday cake was red, white and blue, and the favors were small hatchets of red, white and blue. Cake and cocoa were served to Mr. and Mrs. J. P. Cornelius, Mr. and Mrs. M. L. Haught, Mr. and Mrs. Herther Taylor, Mr. and Mrs. V. R. Kelley, Mrs. L. F. Cozzen, Mrs. Vaden Lester, Bobby and Terry Lester, Mr. and Mrs. E. J. Garvin, Mr. and Mrs. Albert Haught, Junior and Terry Haught, Leroy Young, Louella Hodges, Polly, Fillna, and Altus Kelley, Aubrey Lee Haught, Foy Gene and Tressie Taylor and the honorees, Virginia Cozzen and H. C. Hodges.

Mrs. George Bender returned to her home in San Bernardino, Calif., last Saturday after visiting with old friends in Hamlin and with the Maberrys, near McCaulley.

GOING TO KILL COYOTES AND STRAY DOGS

Beginning Friday, February 14th, I am stocking my place near Abbie with sheep—and coyotes and stray dogs don't do sheep any good. So to protect the sheep, both poison and guns will be used. Watch out for your dogs. Keep 'em out of the sheep pasture.

It's Time To Count School Ages Again

March is the month, as set apart by the Texas School Law, in which to enumerate the scholastics for the school year 1941-42.

Census enumerators have been appointed for each of the 37 common school districts of Jones County. Independent school districts will have their enumerators in the field.

This is a matter of great importance to the Jones County Schools. For each child enumerated the State will pay approximately \$22.50 to the school district in which the child resides. The county superintendent lists four things that if strictly followed will practically eliminate all difficulties in connection with the taking of the census.

1. The time for completing the census is during the month of March.

2. A child, to be a scholastic, must be 6 years of age, and not over 18 years of age by September 1, 1941.

3. Scholastics must be enumerated in the districts in which they live.

4. A district can count only those who reside therein on April 1, for example,

A child is enumerated in district "A" on the 15th of March. He moves with his parents on March 25th to live in district "B". His name should be omitted from the rolls of district "A" and put on the rolls of district "B".

Spend ONE dollar for the Herald and make some one happy all of 1941. Do it.

SAFEWAY

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ-laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

CATCHES DUCK ON FISH BAIT

C. E. Cade, Jr., of Caldwell, Texas, has a mounted greenhead mallard drake on his mantel. That's nothing unusual for sportsmen, but the method by which Cade got possession of the duck is something else.

Cade was fishing near Caldwell in water which has much brush and heavy logs in it. The bass were not striking, although he could see several large ones in the water. Finally Cade eased up back of a large log, tossed his plug into the water and then heard a splash. Thinking he had caught a large fish, he started reeling in his line. About that time, much to the angler's sur-

prise, a mallard drake flew into the air with the fish bait in his mouth. Cade jerked his line and down came the duck.
